## MEMORABLE YEAR

- Poultry has overtaken pork production as African Swine Fever (ASF) reshaped global meat markets
- Opened three new markets – India, Morocco, Tunisia
- And the BIG Kahuna.....China just re-opened its doors after being closed for almost 5 years!!!

Opening China to U.S. paws would **increase bottom line** of U.S. chicken companies by nearly **\$835 million** and **reduce trade deficit by \$1 billion**

Alternately, paws are worth **\$75 million** without access to China
