

2021 Kansas Legislative Top Priority Action List

Kansas Soybean Association

1. Maintain the right to farm in Kansas while working to keep a positive environment for livestock, aquaculture, and other agricultural related industries.
2. Keep the current sales tax structure for farm equipment and other agricultural purchases. Continue support for funding state government through the use of sales and/or income tax without placing more burden on property tax.
3. Maintain the current use-value appraisal system for taxation of agricultural land.
4. Work with Kansas Department of Transportation on the Soy Transportation Coalition project to test the structural integrity of Kansas' bridges.
5. Reinstate funding for the Kansas biodiesel production incentive and work with government and fuel suppliers to promote increased biodiesel usage.
