

Kansas Soybeans as a Food

Bring soy foods and soy fed protein to your classroom

This program is designed for middle and high school family and consumer sciences department. The purpose is to provide students the opportunity to explore soybeans in the form of soy foods and animal protein. From nutritional qualities, various uses, taste, and more - it's designed to bring resources to your classroom.

Soy Foods & Soy Fed Protein

Half of the funds must be used for soy foods - anything that has soy on the ingredient label.

Up to half the funds can be used for soy fed protein - poultry, pork, beef, and dairy because livestock consume soybean meal.

How to Participate

1. Apply
2. Buy soy foods and soy fed protein
3. Have a lab with your students - only classroom activities are eligible
4. Submit receipts and reimbursement form to be reimbursed

Amount

You're eligible for \$3/student up to \$400 a semester. The minimum amount is \$75. For example

17 students = up to \$75 reimbursement
78 students = up to \$234 reimbursement
150 students = up to \$400 reimbursement

Deadlines

Application:

- Fall - Sept. 30
- Spring - Feb. 29

Reimbursement:

- Fall - Jan. 31
- Spring - Jun. 15

Kansas Soybeans as a Food

What qualifies for reimbursement?

Any grocery store food with soy on the label is eligible for reimbursement.

Kansas soybeans get their start being grown by Kansas farmers, but once they leave the farm, the possibilities are endless. Well known soyfoods include tofu and vegetable oil. However, soybeans find their way into many of our grocery store favorites as an ingredient and can be found on labels. Soybeans are not only a great protein source for humans, but are also utilized for feeding pigs, beef cattle, dairy cows and poultry.

Soy Foods

Half of the funds must be used for soy foods - anything that has soy on the ingredient label.

Examples of soy products:

- Tofu
- Vegetable Oil (with soy)
- Tempeh
- Soy yogurt
- Soy milk

Examples of ingredient labels listings for soy:

- Vegetable Oil (Soybean)
- Soy Lecithin
- Soy Protein

Examples of products that may contain soy:
